Multimedia Press Release

Silverback Learning Solutions announces partnership with reading experts, Mindplay.

Meridian, Idaho (August 31, 2021) – Silverback Learning Solutions, an innovative K-12 technology solutions and services provider, proudly announces its partnership with Mindplay. Mindplay is an evidenced-based educational software company focused on developing, publishing, and distributing cost-effective learning tools to support reading growth and development.

With this new offering of Mindplay's comprehensive reading programs, Silverback Learning marks another major step towards expanding its commitment to providing teachers and school leaders with unmatched personalized learning tools that are designed to support the advancement of student achievement in the classroom.

Michael Ritchie, President with Mindplay stated, *"Student success is our greatest passion. We are honored to have Silverback Learning Solutions partner with us in maximizing every student's highest potential."*

Andrew Klingman, Vice President of Sales at Silverback Learning also shared… *"Mindplay continues to develop programs that have proven results when used with fidelity. We are excited to be working alongside an organization that is just as committed to providing educators the resources they need to improve student outcomes."*
